

# SAMPSON COMMUNITY COLLEGE

# EMERGENCY MEDICAL SCIENCE

## HEALTHCARE PROGRAMS

The Emergency Medical Science (EMS) curriculum provides individuals with the knowledge, skills, and attributes to provide advanced emergency medical care as a paramedic for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce.

Students will gain complex knowledge, competency, and experience while employing evidence-based practice under medical oversight, and serve as a link from the scene into the healthcare system.

Graduates of this program may be eligible to take state and/or national certification examinations. Employment opportunities include providers of emergency medical services, fire departments, rescue agencies, hospital specialty areas, industry, educational and government agencies.

**ANGELA MAGILL**

Department Chair,  
Emergency Medical Science
