SAMPSON COMMUNITY COLLEGE

AGRIBUSINESS TECHNOLOGY

OCCUPATIONAL PROGRAMS

The Agribusiness Technology program prepares individuals to manage agricultural businesses and agriculturally related operations within diversified corporations.

Course work includes instruction in agriculture, agricultural specialization, business management, accounting, finance, marketing, planning, human resources management, and other managerial responsibilities. Students will learn the fundamentals of agriculture, focusing on crop production and business. Emphasis is placed on entrepreneurial and field training. Students will also learn the basic principles of our economic system and government policies and programs relating to agriculture.

Graduates should qualify for a variety of jobs in agricultural businesses such as equipment, feed, and agricultural supply sales; store management; farm operations; wholesale and retail produce management; nursery operations; and environmental and agricultural education.
